

ROY MCDONALD

Identity & Access Management Engineer | Microsoft Entra ID | Microsoft 365 | Security Compliance | PowerShell Automation

PROFESSIONAL SUMMARY

Identity and Access Management-focused IT professional with 7+ years of systems, security, and support experience across enterprise, financial, retail, and public-sector environments. Skilled in user lifecycle administration, access control, Microsoft Entra ID, Active Directory, MFA, Conditional Access, RBAC, Microsoft 365, Exchange Online, PowerShell automation, audit logging, incident response, and cross-team remediation. Known for aligning identity operations with least privilege, compliance expectations, ITSM workflows, SLAs, and change-management standards.

CORE SKILLS

Identity & Access Management	Microsoft Entra ID, Active Directory, MFA, Conditional Access, RBAC, LDAP, SSO, GPOs, hybrid identity, user lifecycle administration
Microsoft Cloud Administration	Microsoft 365, Exchange Online, SharePoint, Teams, Intune, MDM, endpoint policy support, mailbox provisioning
Security Compliance & Monitoring	Baseline validation, control checks, audit logging, remediation tracking, SLA reporting, Splunk, Microsoft Defender, Microsoft Purview, Tenable
Automation & ITSM	PowerShell, Microsoft Graph PowerShell, Oomnitza, Jira, Freshservice, Remedy, change management, incident documentation

PROFESSIONAL EXPERIENCE

Bank of America | Infrastructure Engineer | 08/2025 to Current

- Administer Microsoft 365, Exchange Online, Entra ID, SharePoint, Teams, and related cloud services with a focus on secure identity and access operations.
- Manage authentication and authorization controls using Microsoft Entra ID, LDAP, MFA, Conditional Access, RBAC, and PowerShell-supported validation.
- Monitor identity, operational, and security events using Splunk, Microsoft Purview, Microsoft Defender signals, and diagnostic logs to support incident response and audit evidence.
- Partner with Network, Security, and IAM teams to remediate incidents, maintain secure configurations, meet SLAs, and execute change-management standards.

Krispy Kreme | IT Specialist | 02/2025 to 06/2025

- Automated joiner, mover, and leaver workflows for onboarding/offboarding, user provisioning, Microsoft 365 licensing, and access requests using Oomnitza and PowerShell.
- Maintained Microsoft Entra ID identities, MFA settings, Intune MDM policies, mailbox provisioning, Exchange Online settings, and access-control SOPs.
- Performed identity audits and Active Directory cleanup aligned to HR records, least privilege, ITIL practices, and compliance expectations.

West Marine | Desktop Support Analyst | 09/2023 to 02/2025

- Used Tenable and ManageEngine Endpoint Central to support endpoint visibility, vulnerability findings, configuration remediation, patching, and compliance tracking.
- Managed VDI, MDM, VMware hosts, P2V migrations, Microsoft 365 services, Exchange Online, SharePoint, secure access, and uptime support.
- Resolved escalations involving account access, policy enforcement, endpoint compliance, SLA metrics, and ITIL continuous improvement.

United States Postal Service | IT Helpdesk | 05/2018 to 10/2023

- Supported 850+ users across Office 365, Microsoft Entra ID, Active Directory, GPOs, DNS, account access, incident documentation, and SLA-driven resolution.

Toyota of Rock Hill | Technical Support Specialist | 05/2016 to 05/2018

- Provided technical support, automated repeatable tasks with PowerShell, supported inventory systems, and contributed to SQL Server upgrade activities.
